Chennai- 602105

Student Name: J.RAKSAKANTH

Reg. No.:1911260099

Course Code: CSA0805

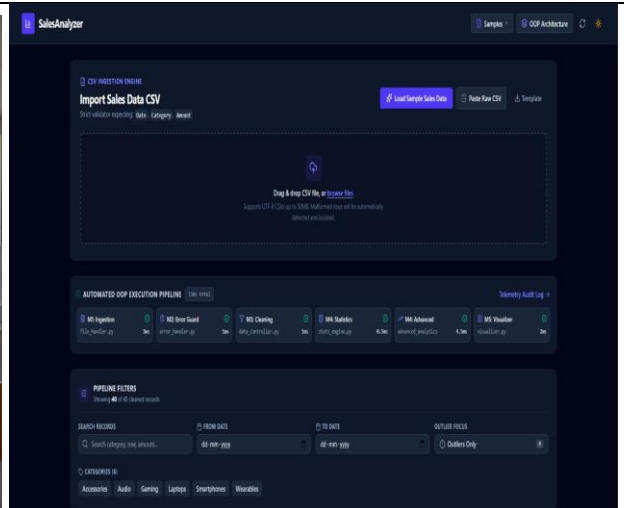

Slot: C

Course Name: PYTHON PROGRAMMING

Course Faculty: Dr.ROHIT BHAT

Project Title: **SALES DATA ANALYZER**

Module Photographs:

Project Description:

My Work: Module 4 — Statistical Aggregation & Advanced Analytics (stats_engine.py)

In this project, my work focused on engineering Module 4 to compute foundational and advanced analytical metrics using Object-Oriented principles. I implemented the base StatsEngine to calculate totals, averages, variance, standard deviation, and IQR-based outliers. Extending this through class inheritance with AdvancedAnalyticsEngine, I built algorithms for cumulative running totals, percentage trend momentum, percentile profiling, and an automated dataset quality Health Score Index.
